CYLINDER HEAD COVER [SKYACTIV-D 1.5]

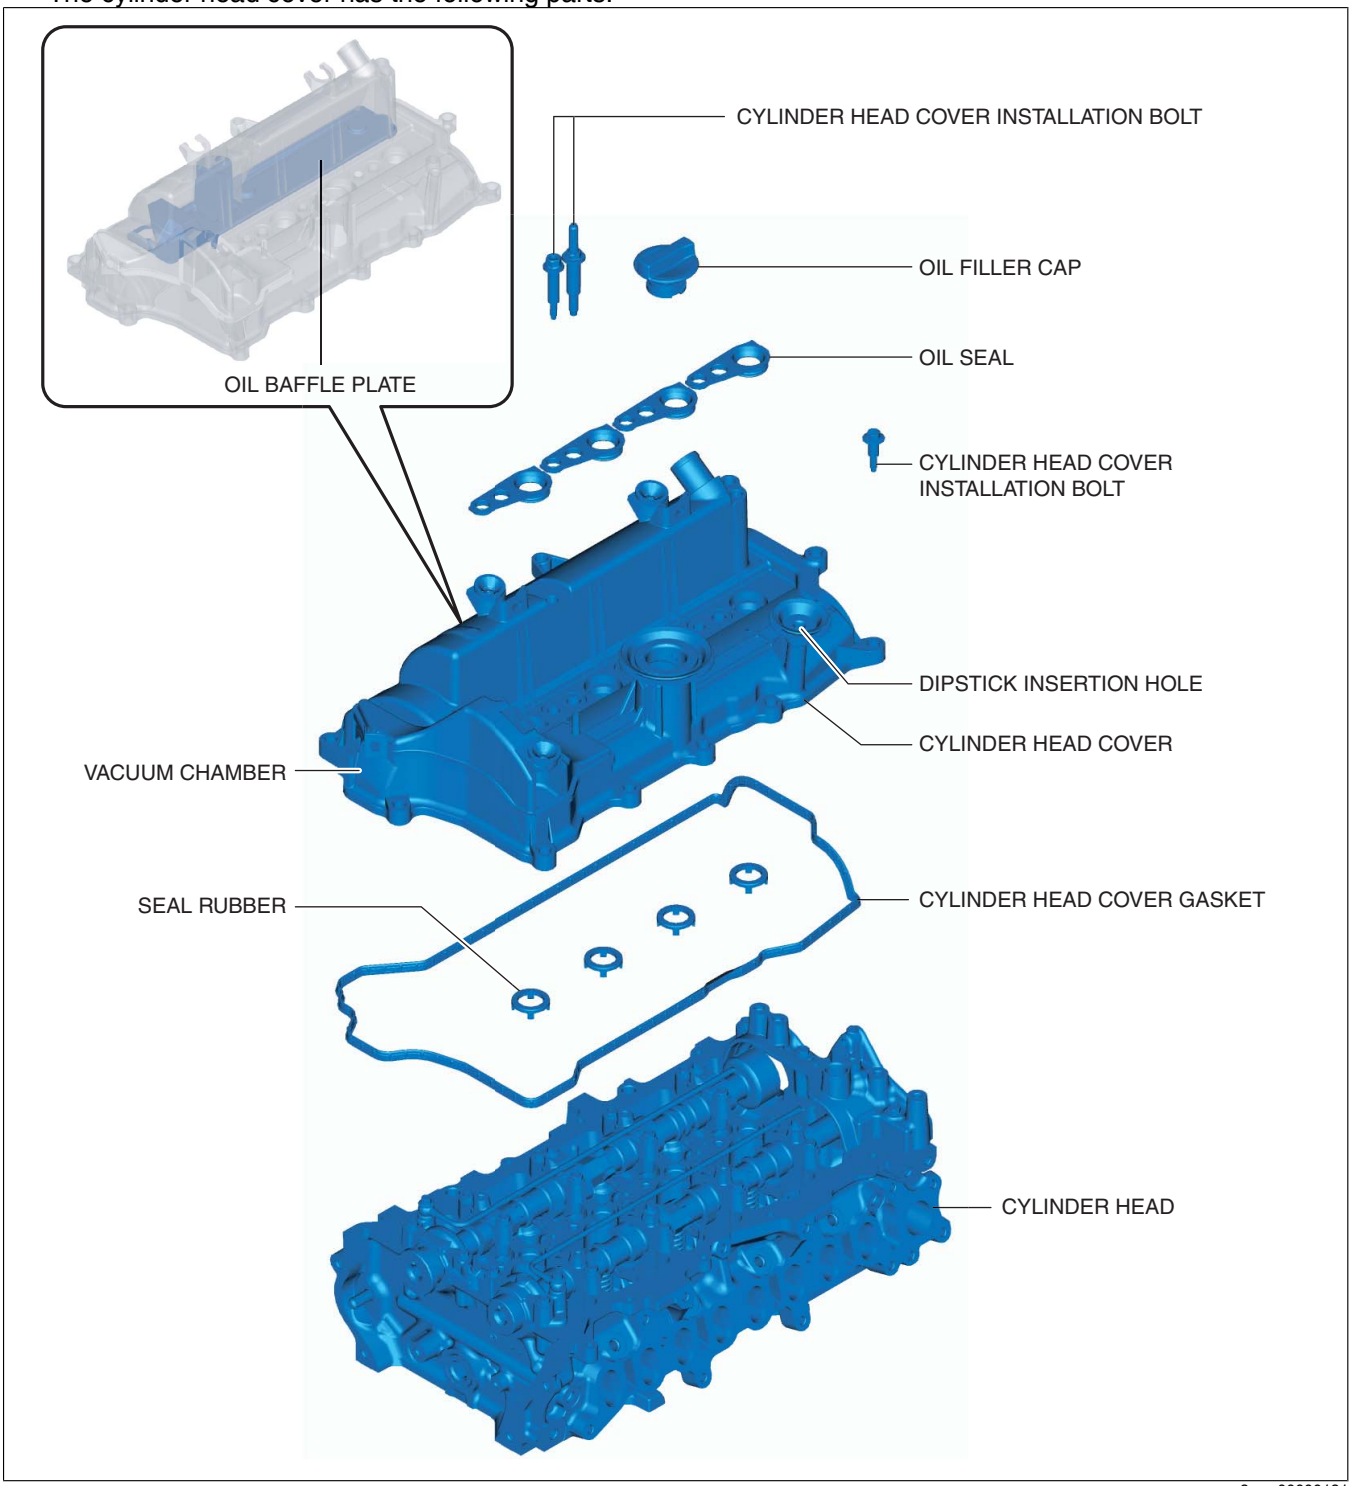

id0110q2105000

Purpose, Function

- The cylinder head cover prevents foreign matter penetration and engine oil spatter.
- The oil baffle plate reduces engine oil consumption by separating the engine oil from the blow-by gas.
- The vacuum chamber built into the cylinder head cover stores the vacuum generated by the vacuum pump operation to perform smooth boost control.

Construction

- The lightweight cylinder head cover is made of hard plastic with excellent noise absorption.
- The cylinder head cover has an integrated vacuum chamber.
- The cylinder head cover has the following parts:
