FUEL FILTER INSPECTION [SKYACTIV-D 1.5]

id0114q2089200

Warning

- **Fuel is highly flammable and dangerous. Fuel line spills and leakage can cause serious injury or death, and damage to equipment. If fuel comes into contact with the skin and eyes it will cause irritation. To prevent this, always perform the "Fuel Line Safety Procedure" referring to the "BEFORE REPAIR PROCEDURE".**
- **A person charged with static electricity could cause a fire or explosion, resulting in death or serious injury. Before servicing the fuel system, make sure to discharge static electricity by touching a vehicle.**

1. Visually verify that there is no cracking, damage, or rust in the fuel filter.

Note

- If there is cracking, damage, or rust in the fuel filter, it could cause fuel leakage.

- If a malfunction is verified, replace the fuel filter. (See FUEL FILTER REMOVAL/INSTALLATION [SKYACTIV-D 1.5].)
