SUPPLY PUMP INSPECTION [SKYACTIV-D 1.5]

id0114q2805800

Caution

- **If a malfunction in the supply pump is verified, place a repair order with the DENSO, Ltd. services network (supply pump manufacturer), and do not disassemble the supply pump yourself.**

1. Verify that there is no malfunction in the following parts:
   - Supply pump
   - Suction control valve
     - — If there is a malfunction, ask the DENSO, Ltd. services network or replace the supply pump. (See SUPPLY PUMP REMOVAL/INSTALLATION [SKYACTIV-D 1.5].)
