TROUBLESHOOTING INDEX [FULL-AUTO AIR CONDITIONER]

id0703c1800300

TROUBLESHOOTING ITEM	DESCRIPTION
INSUFFICIENT AIR (OR NO AIR) BLOWN FROM VENTS [FULL-AUTO AIR CONDITIONER]	• Problem with each vent and/or duct • Airflow mode does not change
AMOUNT OF AIR BLOWN FROM VENTS DOES NOT CHANGE [FULL-AUTO AIR CONDITIONER]	• Malfunction in blower system
AIR INTAKE MODE DOES NOT CHANGE [FULL-AUTO AIR CONDITIONER]	• Air intake mode does not change when switching REC/ FRESH mode
NO TEMPERATURE CONTROL WITH CLIMATE CONTROL UNIT [FULL-AUTO AIR CONDITIONER]	• Temperature does not change when operating temperature dial • Malfunction in A/C unit and/or climate control unit air mix system • Malfunction in driver and/or passenger side air mix actuator or related wiring harness
WINDSHIELD FOGGED [FULL-AUTO AIR CONDITIONER]	• A/C compressor does not operate while airflow mode is in DEFROSTER or DEF/HEAT modes • Air intake mode does not change to FRESH while airflow mode is in DEFROSTER or DEF/HEAT modes
AIR FROM VENTS NOT COLD ENOUGH [FULL-AUTO AIR CONDITIONER]	• Magnetic clutch operates but A/C system malfunctions
NO COOL AIR [FULL-AUTO AIR CONDITIONER]	• Magnetic clutch does not operate
NOISE WHILE OPERATING A/C SYSTEM [FULL-AUTO AIR CONDITIONER]	• Noise from magnetic clutch, A/C compressor, hose or refrigerant line
