MICROPHONE [WITHOUT CENTER DISPLAY]

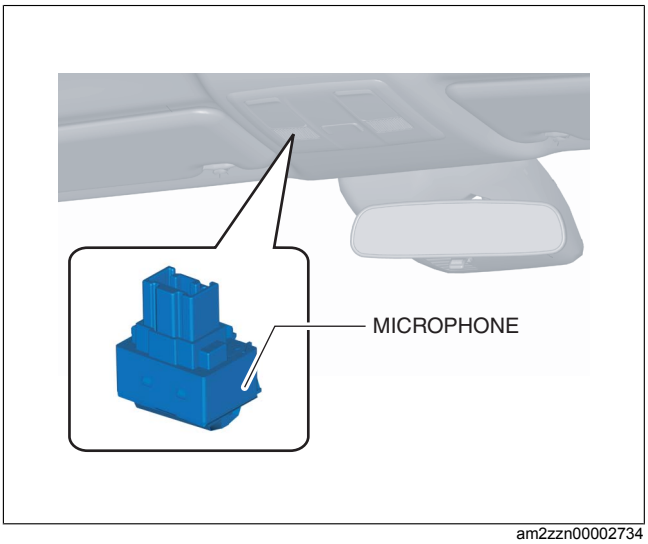

id0920z9011600

Purpose, Function

- Converts the voice (voice commands) spoken into the microphone by the user to an electric signal and sends the signal to the Bluetooth® unit.

Construction

- A voice recognition microphone is located next to the map light to reduce noise caused by road noise while the vehicle is being driven and air blown by the air conditioner.

am2zzn00002734

Operation

- For the voice recognition microphone operation, refer to the ENTERTAINMENT SYSTEM. (See ENTERTAINMENT SYSTEM [WITHOUT CENTER DISPLAY].)

Fail-safe

- Not applicable
